

Wireless HDMI transmitter with Coin Coin Mini receiver

Ref.: SPE-R01-SPE-T02

The 'Coin Coin' Mini wireless mirror box allows you to project your content, images, and videos onto your interactive screen from any device: computer, smartphone, tablet.

- Up to 4 transmitters connected simultaneously for screen sharing on the same interactive screen.
- Plug and Play, the transmitter is connected to your device without the need to install software beforehand.
- Compatible with all SpeechiTouch interactive screens.
- Full HD resolution achieved with reactivity and no latency during image transmission.

The Coin Coin Mini wireless box comes with 1 transmitter and 1 receiver (transmitter also sold separately).
