

WINDOWS PC OPS PACK

OPS i7 for 5K interactive display 92" and 105"

Ref.: ST-OPS-i7-006-C12-PACK

This OPS i7 is a Windows PC, integrated with the Windows 11 Pro version. It is designed in a specific format to easily fit into the slot of your interactive display and be invisible, without any visible cables or peripherals.

From the source panel of the touch interactive display, quickly switch from the Android interface to the Windows PC interface and vice versa, depending on your projects.

This OPS pack contains:

- an OPS with an i7 processor
- a Windows 11 Pro licence
- a wireless keyboard

Optional: the lolaos V2 whiteboard application, specially designed for the Windows environment.
