# SuperGlass+ S™

The comfort of paper, the advantages of digital

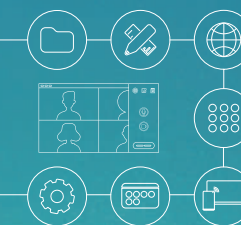

Note

## Note 2.0 The limitless digital whiteboard

During meetings or class, access the digital whiteboard application Note 2.0 to present, illustrate, annotate, diagram, organize your ideas, brainstorm together, and share your work using the wide range of available tools.

## Feature-rich and intuitive toolbox

With the SuperGlass+ S interactive display, enjoy a multitude of features for maximum interaction with your audience. Display several apps simultaneously with multi-windows, screenshot, record, annotation, and quickly access all your applications thanks to the rich toolbox palette.

## Go further with a Google-certified or Windows

Embed an OPS into your screen and expand your interactive capabilities, choosing between a Windows or Google-certified environment. This allows you to seamlessly access your familiar workspace and associated software on a giant touchscreen (optional).
