Speechi Connect

An experience that reflects you

A unique and connected interface that provides access to your personalised workspace on a large screen, securely, as your data travels with you.

Connect, share, and collaborate using a wide range of tools. The screen adapts to your needs for an experience designed just for you.

A Comprehensive Application Ecosystem for Classrooms and Meeting Rooms

Google EDLA Suite

Enjoy a full, certified and secure access to all Google services and applications, unlocking limitless possibilities.

Screen Sharing

With Bytello Share mirroring licence, share the content of your screen (PC, tablet or smartphone) onto interactive display, and collaborate solo or with others.

Whiteboard

Take notes, present, illustrate, organise ideas collaboratively and lead your lessons or meetings, using Note 2.0 whiteboard tool.

App Store

Access a suite of applications available on all screens. Choose from the catalog based on your needs and even add your own.

Automatic Note-Taking

Quickly take notes with the fine tip of your stylus. Annotate and save your notes effortlessly.

Picture-in-Picture

Always keep one app in view, allowing you to navigate between 2 applications simultaneously for maximum efficiency.

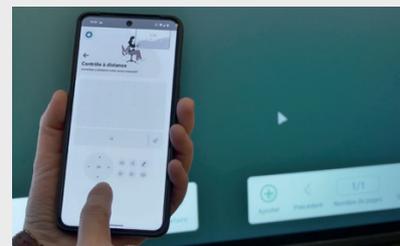

File Sharing

Upload files via the app. Once connected, find them on the interactive display. Everything you save can be retrieved at the end of your session.

Streaming

Stream the content from the interactive display to your students' tablets. They can follow the lesson live without latency, and take notes without disrupting the lesson.

Digital Pointer

Use the digital pointer to control the interactive display from your smartphone. Navigate with the trackpad, manage volume, return to the home page, and more.
